

Kafka

Storage Architecture

Partition Leaders & Followers

What are Leaders & Followers?

1. Leader Partitions

2. Follower Partitions

```
Run: zookeeper-start x 0-kafka-server-start x 1-kafka-server-start x 2-kafka-server-start x topic-create x
cmd.exe /c topic-create.cmd
C:\Udemy\FinalProjects\01-storage-demo\scripts>kafka-topics.bat --create --zookeeper localhost:2181 --topic invoice --partitions 5 --replication-factor 3 --config
Created topic invoice.
Process finished with exit code 0
```

Topic
